|                    | 2 Killian 102 A/V Control System | n CEAP 1.1.3   | \$16,000 |

#### **Brief Justification:**

Killian 102 was renovated in 2012 and an extensive A/V control system was purchased. This system is based on equipment from Crestron. The Division of IT was working toward support for Crestron at the time. However, IT is now standardizing classroom technology on Extron systems and is able to support their control hardware and software. Since that time, we have also had malfunctions in one of the control panels in the room. In light of these considerations, we wish to switch the room's central A/V control equipment to Extron and match the classroom standards established by IT. This will let us rely on our local IT staff to support the room and provide a consistent interface across classrooms for faculty. Budget includes \$13,489.43 of equipment as specified by IT and an estimated \$2000 for facilities costs.

| 3                  | Killian/BYOD Power Project | CEAP 1.1.3   | \$13,000 |

#### **Brief Justification:**

| Our capability to deliver software to students wherever they are through virtual applications and   |
|---|
| virtual desktops has recently advanced. Along with this, data indicates that over 90% of            |
| undergraduates own a laptop, with most also owning a smartphone or tablet. Given this, our college  |
| is partnering with the Division of IT to identify and overcome barriers to eliminating the need for |
| laptop carts and moving to a Bring Your Own Device (BYOD) model. The main problem is the power      |
| supply for laptops and devices. We are currently investigating power solutions for classrooms in    |
| Killian and are asking for \$13,000 to purchase a solution once identified by the project team.     |

| 5                  | Fixed term Faculty Postion for Leadership Minor | 1.2.1  | \$73,272 |

Faculty Position and Program Director: To provide leadership within the Leadership Minor program. Facilitate the day to day tasks in the program, teach Leadership courses, and strengthen responsiveness to student and program needs. This program currently opperates with adjunct faculty only. The new FLSA law is affecting the ability to recruit adjuncts from WCU staff and to keep the program viable. A full time faculty member is needed for continuity of instruction and a committment to recruitment of strong adjuncts. The program director would also be expected to grow the enrollment as WCU seeks to expand opportunities for students to identify areas service, student engagement, and certifications. Between the years of 2014 and 2016 there have been 86 students with declared minors from major degree programs including chemistry, psychology, business administration, criminal justice, music, and Spanish.

#### **Brief Justification:**

Currently, 7 Counseling faculty members share 2 offices at BP. To consistently and optimally meet both the WCU Strategic Plan 2020 Vision and program-specific national CACREP accreditation standards, Counseling faculty members need greater access to private offices. In these offices, Counseling faculty conduct individual supervision with student-counselors-intraining, meet with potential students, provide advising for current students, and meet with community members in collaboration of program and community initiatives.

Two additional offices are requested for the 6 Educational Leadership Faculty that teach coursework in the Educational Doctorate Program at BP. Currently, they have no dedicated office space for advising, planning, or meeting with community partners other than through reservation of student and faculty group rooms.
