Session Descriptions

Breakout Session: (12:30 – 1:45)

Project Approach: Experience, Reflection, and Application

Myra Watson and Dr. Katie Bargreen

Participants will choose between two topics for the afternoon breakout session: 1) Community Helpers 2) Shadows

Breakout session(s) will provide participants with the opportunity to have a guided experience with a Project Investigation. Participants will actively engage with the project topic, explore resources, and develop and share documentation of the learning process. Time will also be allotted for participants to reflect on how project investigations could be implemented in their school communities.
