## College/Department Degree

Following is a list of Majors and Concentrate

**Minor:** A minor is a contract for a group of courses in a discipline or two or more closely related disciplines, specially designed individual programs of different courses (15-22 semester hours), and providing credit hours through regular enrollment. Wes courses are used to complete minor.

A student may not major and minor in the same

field or be a concentration in more than one field. A student applying for a dual study or a program of study in more than one discipline must declare a student major in one discipline.
